HOMES TO LIVE IN ALL YEAR ROUND

Almazara Hills is the first phase on sale, comprising 32 exclusive apartments with stunning panoramic views, situated in the most elevated part of the Almazara Boutique Residences development.

All homes are south or southwest facing and have unobstructed views towards the bay of Marbella, the Moroccan coastline and Gibraltar.

The project comprises 4 contemporary styled buildings and an "open plan" design but with a sympathetic rustic appearance to blend into the natural surroundings.

These buildings, just 3 storeys high, house **2- and 3-bedroom apartments and penthouses with solarium**, all with generous terraces and there is a communal pool and landscaped gardens with native plants, many recovered from the area itself.

You can live all year round in these modern homes, or just enjoy holidays and weekends, in a peaceful residential area that is just a few kilometres from Marbella's **Golden Mile**.

SPACIOUS TERRACES WITH PANORAMIC VIEWS

Almazara Hills provides a range of apartment types and penthouses with 2 or 3 bedrooms, and all have an open plan kitchen integrated into the living/dining room.

The living rooms enjoy lots of natural light, with large patio doors opening onto the spacious terraces. The stunning panoramic views over Marbella and to the Moroccan coastline and Gibraltar will definitely impress.

Almazara Hills has additional convenient features such as an underground parking space and storeroom for each home, pools for adults and children and large landscaped gardens. The development also has public access routes within the surrounding natural setting with more than 5 hectares of forest allowing you to walk, relax and enjoy nature.

THERE'S NO PLACE LIKE HOME

Almazara Hills offers a selection of high-quality materials and finishes, which provide the homes with a high degree of elegance, comfort and exclusivity.

The homes are delivered fully equipped, with premium brand finishings, ready to move in. They also have an underground parking space and a storeroom.
